TerraResQ AI

Satellite-based water analysis and potential flood-change screening

Research prototype: detected water changes are not verified floods. Clouds, shadows, seasonal water, and image-processing differences can affect results. This tool does not generate verified rescue routes.

Satellite catalogue

Earlier observation

2026-10-02 | S2B_MSIL2A_20261002T051649_R062_T43PDK_20261002T091946

Later observation

2026-10-07 | S2C_MSIL2A_20261007T051711_R062_T43PDK_20261007T100505

The later observation is reprojected to the earlier observation's grid. Only pixels valid in both scenes are included.
